

Shade Sails.

We've got you covered.

Straitline Canvas Shade Sails are custom made for all situations. We use strong, proven UV-resistant shade mesh to reduce UV radiation by 85-98%.

We offer a lifetime guarantee on our workmanship and UV resistant thread. There are three fabric options:

SHADETEX 370 is our premium Australian-made shade mesh, with a 15 year UV resistance guarantee.

EXTRABLOCK 330 blocks out the most UV and visible light, with a 12 year UV resistance guarantee.

SHADETEX 320 is our standard shade mesh, with a 13 year UV resistance guarantee.

The ultimate addition to any outdoor area, Straitline Shade Sails add style, class and shelter from the sun.

The best part? As a temporary structure, Shade Sails don't require building consent by the Palmerston North City Council (if smaller than 50m²).

We offer a full service, including:

- Supplying galvanised steel poles and stainless steel house brackets
- Installing shade sails, brackets and poles
- Maintenance, cleaning and a winter storage programme
- Full servicing of existing shade sails, including tensioning
